MEMORANDUM FOR THE RECORD

SUBJECT: APN Working Group Meeting

25X1 1. The APN Working Group met on 13 May. [ ] OCPAS/CDG briefed the group on the status of ICADDS. There are currently 3 workstations in production running on a VAX 11/80 system. Additional activities include the VM linkage both ways (one way works now); software to allow the Tectronics 4014 terminals to work on ICADDS; and software to allow users on VM to send a TELEGRAF data file to ICADDS for further processing.

2. Plans for ICADDS include the purchase of 4 more workstations and 2 high speed plotters to replace the Gerber Plotter - all in FY '83. The SYTEX black and white scanner is being evaluated as an extension of the ICADDS system. This may be another item procured in FY '83.

25X1 3. [ ] briefed the group on the status of 2 actions on OL's APN efforts. The Hell Color Scanner is expected to be delivered within the next 30 days. The device will accept color originals or color transparencies and put them onto film. The process will take approximately 30 minutes for a complete scan. 25X1 [ ] OC mentioned a possible concern regarding a 25X1 foreign made piece of hardware (the scanner is a German made product), and [ ] indicated this was the only device that came close to meeting the output size capabilities.

4. The page-makeup Request for Procurement (RFP) is expected to hit the street very shortly. The initial request is for 3 work stations - monochrome display, with 3 additional work stations in FY '84 and 6 more in FY '85.

25X1 5. [ ] initiated a discussion on the nature of our working group meetings, and the wisdom of continuing it in its present form versus elevating the meetings to a higher level review. The group felt that the current configuration of the group was right. The group agreed to circulate the minutes of the meetings to upper management for feedback. It was suggested that if upper management had a concern or an issue that the group should be tasked to respond to the issue.

25X1

 requested a milestone chart through FY 84 be sent to him from OCPAS/CDG and OL/P&PD/PPSS regarding the plans for their projects by 10 June.

7. The meeting was adjourned without a specific date for the next one (tentative 6-8 weeks pending holidays and vacations). The group then proceeded to see a extremely impressive demo on the ICADDS workstation and capabilities.
